# SJO Volcanic Pili Nuts Introduction

- Stephen James Organics is the world's only supplier of Volcanic Pili Nuts... “Living Energy Super Nuts”
- Volcanic Pili Nuts are nature's Gourmet answer to Energy-Rich Living, and Beautiful Skin.
- With fans like Rihanna, Tom Cruise and Peter Berg, SJO is all about working with the best-retailers in the world
- Origin of Volcanic Pili Nuts: The Tropical Philippine Rainforest

*italy by love*

# SJO Volcanic Pili Nuts Providence and Sourcing

- Harvested from tall, evergreen Pili trees (*Canarium Ovatum*), native to the Philippines. Tropical pili trees are rooted deeply in rich, **volcanic soil**.
- Blasted by three meters of rain and 20 major typhoons a year, these are nuts from extreme nature. The sturdy trees of the Philippine Rain Forest produce the most delicate, buttery, healthy nut imaginable: the volcanic pili nut.
- This precious nut was a wild, backyard commodity for many generations, but modern awareness of its huge health benefits coupled with the unique, nutty flavor and rich texture have eventually led to the successful commercial cultivation of the Pili Nut.

# SJO Volcanic Pili Nuts

## Living Energy Volcanic Pili Nuts

- We have searched all over the **Philippines** to bring you the finest, most delicious and nutrient-dense Pili Nuts available.
- By using our proprietary **pre-sprouting and low-heat dehydration process**, our Pili Nuts are THE TASTIER, HEALTHIEST NUTS IN THE WORLD. Our process removes an indigestible layer along with the phytic acid inhibitors found on all nuts and seeds, and ignites the life force of the nut, giving it living energy. The low temperatures keep the enzymes alive and maintain all vitamins and minerals in their pristine form.
- We put them through an intense **Quality Control** process.
- The original Volcanic Pilis are dusted with our **73 Deep Pink Himalayan Salt** that contains 73 bio-available minerals
- The Pilis are then packaged in our customized cans and pouches, again of the finest quality to ensure optimum quality and freshness.

# SJO Cocoa Pili Nuts Introduction

- Cocoa Pili Nuts are coated in a delicate blend of **Raw Cacao**, **73 Himalayan Salt** and **Carazuc** (our organic coconut flower sugar).
- Organic raw cacao contains:
  - A bouquet of antioxidants
  - Plenty of minerals (especially iron, magnesium and manganese)
- The Pilis are then packaged in our customized cans and pouches, again of the finest quality to ensure optimum quality and freshness.

Satisfy Your Chocolate Craving,  
and only feel good about it!

# What's the Best Way to Enjoy Pilis?

- Pilis are fabulous alone, because their texture is just so remarkable by itself
- Pilis have quickly become a sought-after ingredient among gourmet chefs
- They're also incredible chopped on salads or atop desserts
- Perfect to pair with wines, champagne and caviar.

## So Just How Good Do They Really Taste? Ask the market.....

"Comparing pilis to macadamias doesn't do them justice.

If you're into metaphors, here are a few:

Pili nuts are like pure freeze-dried sweet butter. Pili nuts are like toasted clouds.

Pili nuts are like the softest most voluptuous featherbed you ever slept on, except somehow crispy-beyond crispy, and buttery-beyond buttery.

Hmm, even the metaphors are falling short. Suffice it to say that there's a new nut in town, and it will redefine what you thought was possible for your mouth to experience."

Hilary Bromberg, Founder, Barefoot Provisions

# Pili Nuts: Health Benefits

- ✓ NO TRANS FAT
- ✓ NO CHOLESTEROL
- ✓ NO GLUTEN
- ✓ NON GMO

- Pilis are **nutrient dense**, and provide significant amounts of essential fats, complete protein, vital electrolytes, such as sodium, magnesium, and potassium, as well as calcium and phosphorus, which are crucial to the **formation and maintenance of bone tissue**
- Healthy, essential fats support a healthy heart, **lower blood cholesterol** and help eliminate plaque that builds inside arteries
- The complete protein content is **a notable bonus for vegans** who are looking for ways to increase essential amino acids intake and protect muscle tissue
- Its rich mineral content may **help regulate the body's internal environment** and **keep organs functioning within optimum range.**
- Phytosterols in pili nuts, carried in the high fiber content of the nut, actually **can block the uptake of bad cholesterol from other foods.**
